1. COURSE CONTENT:

MachineHack will build and make available to RCPIT's students, teaching faculty and management, two semester long courses, namely:

1. **Python For Data Computing** (designed especially for 1st and 2nd year students across departments, but suitable for any technical student)
2. **Data Science 101 with MachineHack** (designed especially for 3rd and 4th year students across departments, but suitable for any technical student with a background in linear algebra, programming and algorithms.)

2. TRAINER ORIENTATION PROGRAM:

MachineHack will provide an orientation program for the instructors and teachers from RCPIT to help them successfully teach these courses and make sure course content is delivered appropriately to the students under the "Train The Trainer" program. This orientation program will last 4 weeks and will contain 4 sessions from experts at MachineHack.

There will be ongoing support which will include monthly doubt clearing sessions regarding the platform, material and outcome for students.

3. PLATFORM

The course will be delivered and executed exclusively on the MachineHack platform (<https://www.machinehack.com>). Exclusive pages will be designed and developed for the courses for RCPIT for students and instructors to interact richly and regularly with the course material and measure progress
